

Assignment

1- Try to make multithreading program.

- For class Number that has two functions one is the factorial and the other is sum.
- Factorial function will sleep for 3 seconds.
- Try to add the two functions to the same thread.
- Try to make each one in a separated thread.

2- Create a Console Application that:

1. Creates a file called `students.txt` if it does not exist.
2. Asks the user to enter a student name.
3. Saves the name into the file.
4. Reads all data from the file.
5. Displays all student names on the console.

Enhance your program to:

1. Allow the user to enter **multiple student names** (loop).
2. Ask the user if they want to continue (Yes/No).
3. Store each name on a **new line** in the file.
4. Display all students after finishing input.

Bonus:

Create a simple menu:

1. Add Student
2. View Students
3. Search Student
4. Exit
